
JOB ROLE	.Net Developer
Location	Kew / Brentford TW8
Job Type	Full-time
Salary Offered	Competitive package and benefits

This is a great opportunity to join a busy team working on own multi-channel e-commerce software, many Magento e-commerce websites for various high net worth companies, famous museums, and many more; also responding to 50-100 inbound support requests a week for e-commerce software support.

We're on the lookout for a passionate developer who immerses self in C# .net coding - your main role will be to understand client's requirements, convert to design, write C# programs, apps, APIs, etc. that talk with Amazon Web Services, deal with its cloud computing technologies. The role will suit an IT Graduate with a qualification in computer sciences, programming or similar with coding skills in C# Dotnet, ADO.net.

About You ...

- Be confident and logical with your approach to IT issues and a fast learner
- Hands on experience in C#.NET, ASP.NET MVC & WEB API
- Knowledge of MVC framework, and Web APIs
- Threading (Experience in creating a multi-threaded application)
- SQL Server 2008 (onwards) & MySQL (optional)
- Experience in AWS Cloud (SQS, S3, CloudSearch)
- Logging Framework (preferably using Log4net.dll)
- Experience in consuming REST & SOAP-based APIs
- Experience in creating & parsing XML & Text (TAB & CSV Delimited) data
- Experience in uploading & downloading files using FTP protocols
- Knowledge of any source control management tool (preferably SVN Tortoise)

You're Ideal If You've Done Any of the Following ...

- You've previously worked on an eCommerce related project
- You've got previous experience working in the marketplaces like Amazon or eBay, using Shopify, Magento or BigCommerce

As a .Net developer, You'll Be ...

An enthusiastic, upbeat individual who is quick to learn, has a genuine interest in online business and the skills and experience to help our clients grow their businesses. You'll also need to be able to keep up with our dynamic Technical Director, helping prioritise the department's key issues while resolving client's queries quickly and efficiently.

Your Role Will Include ...

- Ensuring all support documentation is up-to-date and socialising solutions through our knowledge base
- Working with remote technical teams in Silicon Valley and Bangalore
- Understand and have good knowledge of technologies, architecture, frameworks and processes used in the project, account and practice.
- Should be capable of providing innovative solutions to business problems.
- Deliver projects on time and within budget with quality.
- Ensure your projects meet the customer expectations as measured by scorecards and NPS.
- Understand Customer Domain and business processes.
- Quick Turn Around to day to day and high priority ad-hoc requests.
- Ensure SDLC/QA compliance using Defined process and methodology.
- Participate in QA activities, final inspection, reviews, audits, metrics data generation, collection, interpretation and submission.
- Define and established Configuration Management.
- Establish/enhanced template, Guideline, checklists and standards for project and team.
- Ensure High quality delivery.
- Understand the commitment to the Customer as per revised deal.
- Quality: Meet or exceed practice guidelines.
- Must be able to understand and contribute in the Architecture phase of the Project/Program
- Must be able to do Design independently using the best available patterns.
- Code independently; able to work independently as well as in teams
- Implement the best practices in coding and design.
- Awareness and adherence to security policies and guidelines in the project.
- Able to troubleshoot problems reported by clients

What you'll need to succeed ...

Our ideal candidate would be a technically-savvy problem-solver who enjoys using their knowledge and skills to address client's enquiries. Commitment and enthusiasm for our services are essential - we expect all employees to contribute to the continuous improvement of the company and be part of our success.

Our Ideal Candidate Will ...

- Possess a pro-active and positive approach to problem-solving
- Have a passion for technology, particularly e-commerce
- Possess strong communications skills (both written and oral) and be comfortable using modern technology
- Have the confidence to deal with senior level clients and members of their team
- Be able to think creatively and contribute ideas to resolving client's queries
- Be comfortable using their initiative while knowing when to escalate critical issues to their manager
- Be well organised to ensure that no client queries are lost or ignored
- Be capable of working effectively with our team of customer support agents • Be reliable and punctual

About 247 Commerce

247 Commerce is an e-commerce agency which designs, develops and integrates beautiful, technically advanced web shops for clients including the V&A Museum, Marks & Spencer, the National Theatre, the British Museum, Royal Navy, and multiple small and medium-sized businesses.

We're an officially accredited Magento Business Solution Partner, offering bespoke web store development services featuring highly customised integrations with client's existing software systems. This usually includes integrations with third-party ERP software, warehouse management solutions, CRM systems, payment gateways, shipping services, as well as a vast range of retail software solutions available on marketplaces.

We're also the developer of 247 CloudHub, a multichannel e-commerce integration tool, which helps online retailers automate key operational processes, reduce costs and manage online selling operations efficiently. CloudHub's modular architecture and highly customisable features provide businesses with a single lightning-fast cloud-based system with all the tools required to scale e-commerce businesses efficiently across multiple websites and marketplaces.

We're looking for someone who combines great listening skills with a courteous manner and who is responsive to clients' needs. We do expect our employees to show commitment to the success of 247 Commerce, and in return, we offer a great package along with a strong commitment to helping you reach your career goals.

You'll have plenty of learning opportunities and will work with incredible people on technically advanced e-commerce projects across the retail industry.

How to Apply ...

You must be eligible to work in the UK and, ideally, would be an IT Graduate with a qualification in computer sciences, programming or similar.

Applications in the form of a CV, which emphasises relevant skills and experience, together with a covering email, setting out why you'd like to be considered you for this role, should be sent to: jobs@247commerce.com.

247 Commerce is an Equal Opportunities Employer. It's important to us that 247 Commerce offers an inclusive and fair workplace for everyone. We work hard to offer a flexible working environment for all. We encourage an open and supportive atmosphere, where everyone feels included.
