
JOB ROLE	Senior Dotnet Engineer
Location	Kew / Brentford TW8
Job Type	Full-time
Salary Offered	Competitive package and benefits

This is a great opportunity to join a busy team working on many Magento e-commerce websites for various high net worth companies, famous museums, and many more; also responding to 50-100 inbound support requests a week for e-commerce software support.

We're on the lookout for a passionate developer who immerses self in designing front-end screens by converting from PSD file - your main role will be to understand client's requirements, convert the design to web pages, that are responsive, test and integrate them to the satisfaction of all the stakeholders. The role will suit an IT Graduate with a qualification in computer sciences, programming or similar with a strong understanding of Cloud concepts – IaaS, PaaS, SaaS, having 5+ years' experience.

About You ...

- Have empathetic listening skills, enjoy problem-solving and a naturally positive, can-do attitude
- Experience in leading change, taking the initiative, and driving results
- Knowledge of DevOps concepts, tools and techniques
- Knowledge of Cloud platform services (AWS) would be an advantage
- Demonstrated ability to lead and plan projects
- Infrastructure and software deployment experience
- Development experience – C/ C++/ VC++, usage of JS libraries (Angular JS)
- Very strong with PowerShell Scripting on .Net Development
- Expert with Windows
- Expertise with SQL
- Experience in SVN, GIT based source control, etc. will be plus.

You're Ideal If You've Done Any of the Following ...

- You've previously worked on an eCommerce related project
- You've got previous experience working in the marketplaces like Amazon or eBay, using Shopify, Magento or BigCommerce

As a DevOps Engineer, You'll Be ...

Enthusiastic, upbeat individual who is quick to learn, has a genuine interest in online business and the skills and experience to help our clients grow their businesses. You'll also need to be able to keep up with our dynamic Technical Director, helping prioritise the department's key issues while resolving client's queries quickly and efficiently.

Your Role Will Include ...

- Responsible for the design, development and implementation of scalable Cloud services.
- Serve as a technical resource on development and infrastructure teams to assist in application and infrastructure automation and application migration to the Cloud.
- Works closely with DevOps, DBAs, System and Network Engineers to refine security practices in Cloud technologies.
- Strong focus on promoting automation and DevOps best practices along with infrastructure, application and security monitoring.
- Design, develop and deliver highly available and scalable Cloud services infrastructure, APIs and delivery pipelines.
- Drive the adoption and implementation of DevOps and automation for infrastructure services and application deployments for solutions in the Cloud
- Work with architecture, infrastructure and development teams to implement Security, Capacity, and Compliance strategies and best practices for existing and new applications.
- Implement proactive and reactive infrastructure, application and security monitoring.
- Provide 24x7x365 assistance as necessary in support of Cloud operations as part of the Cloud Engineering team on-call support.
- Provide technical leadership, mentoring and coaching to team members to standardise, share and review Cloud architecture and DevOps best practices.

What you'll need to succeed ...

Our ideal candidate would be a technically-savvy problem-solver who enjoys using their knowledge and skills to address client's enquiries. Commitment and enthusiasm for our services are essential - we expect all employees to contribute to the continuous improvement of the company and be part of our success.

As Our Ideal Candidate you will ...

- Possess a pro-active and positive approach to problem-solving
- Have a passion for technology, particularly e-commerce
- Possess strong communications skills (both written and oral) and be comfortable using modern technology
- Have the confidence to deal with senior level clients and members of their team
- Be able to think creatively and contribute ideas to resolving client's queries
- Be comfortable using their initiative while knowing when to escalate critical issues to their manager
- Be well organised to ensure that no client queries are lost or ignored
- Be capable of working effectively with our team of customer support agents
- Be reliable and punctual

About 247 Commerce

247 Commerce is an e-commerce agency which designs, develops and integrates beautiful, technically advanced web shops for clients including the V&A Museum, Marks & Spencer, the National Theatre, the British Museum, Royal Navy, and multiple small and medium-sized businesses.

We're an officially accredited Magento Business Solution Partner, offering bespoke web store development services featuring highly customised integrations with client's existing software systems. This usually includes integrations with third-party ERP software, warehouse management solutions, CRM systems, payment gateways, shipping services, as well as a vast range of retail software solutions available on marketplaces.

We're also the developer of 247 CloudHub, a multichannel e-commerce integration tool, which helps online retailers automate key operational processes, reduce costs and manage online selling operations efficiently. CloudHub's modular architecture and highly customisable features provide businesses with a single lightning-fast cloud-based system with all the tools required to scale e-commerce businesses efficiently across multiple websites and marketplaces.

We're looking for someone who combines great listening skills with a courteous manner and who is responsive to clients' needs. We do expect our employees to show commitment to the success of 247 Commerce, and in return, we offer a great package along with a strong commitment to helping you reach your career goals. You'll have plenty of learning opportunities and will work with incredible people on technically advanced e-commerce projects across the retail industry.

How to Apply ...

You must be eligible to work in the UK and, ideally, would be an IT Graduate with a qualification in computer sciences, programming or similar.

Applications in the form of a CV, which emphasises relevant skills and experience, together with a covering email, setting out why you'd like to be considered you for this role, should be sent to: jobs@247commerce.com.

247 Commerce is an Equal Opportunities Employer. It's important to us that 247 Commerce offers an inclusive and fair workplace for everyone. We work hard to offer a flexible working environment for all. We encourage an open and supportive atmosphere, where everyone feels included.
