
JOB ROLE	Senior PHP Developer
Location	Bangalore
Job Type	Full-time
Salary Offered	Competitive package and benefits

This is a great opportunity to join a busy team working on many Magento e-commerce websites for various high net worth companies, famous museums, and many more; also responding to 50-100 inbound support requests a week for e-commerce software support.

We're on the lookout for a passionate developer who immerses self in PHP coding - your main role will be to understand client's requirements, convert to design, write PHP programs that are responsive, test and integrate them to the satisfaction of all the stakeholders. The role will suit an IT Graduate with a qualification in computer sciences, programming or similar with coding skills in PHP.

About You ...

- Have empathetic listening skills, enjoy problem-solving and a naturally positive, can-do attitude
- Have a personable manner with a clear, friendly and confident tone of voice
- Be confident and logical with your approach to IT requirements and a fast learner
- Be organised, with excellent attention to detail and ability to manage multiple responsibilities simultaneously
- Knowledge of Business Analysis modelling tools (e.g. Activity Diagrams, Process Flows, State Diagrams)
- Be proficient with technical skills like PHP, HTML, CSS including responsive techniques
- Strong experience in object orientated PHP Framework like Laravel, CakePHP, Code Ignitor, Zend or Yii
- Knowledge of Javascript frameworks incl. Prototype, JQuery, Qunit, LAMP or LEMP server administration incl. performance tuning
- Magento knowledge/experience would be an added advantage

You're Ideal If You've Done Any of the Following ...

- You've previously worked on an eCommerce related project
- You've got previous experience working in the marketplaces like Amazon or eBay, using Shopify, Magento or BigCommerce

As a PHP developer, You'll Be ...

Enthusiastic, upbeat individual who is quick to learn, has a genuine interest in online business and the skills and experience to help our clients grow their businesses. You'll also need to be able to keep up with our dynamic Technical Director, helping prioritise the department's key issues while resolving client's queries quickly and efficiently.

Your Role Will Include ...

- Work with customers to clarify needs and requirements and to build a solution design
- Participate in the design and development of web-based solutions
- Provide solution design, software development, platform administration, and database administration solutions to clients
- Documenting user stories, system test scripts, and user acceptance test scripts
- Assist clients to develop or express an organisational strategy for accomplishing strategic technology goals
- Assist clients to identify appropriate technologies for accomplishing their strategic technology goals
- Confident approach to best practice for Magneto and PHP development
- Research and documentation skills
- Database design and maintenance skills in MySQL
- Ability to perform unit testing as per the requirements
- Being aware of the project management methodologies like Scrum, Agile, TDD and CI
- Exposure to high volume e-commerce and dealing with spikes in traffic
- Ensuring all support documentation is up-to-date and socialising solutions through our knowledge base
- Working with remote technical teams in Silicon Valley and Bangalore

What you'll need to succeed ...

Our ideal candidate would be a technically-savvy problem-solver who enjoys using their knowledge and skills to address client's enquiries. Commitment and enthusiasm for our services are essential - we expect all employees to contribute to the continuous improvement of the company and be part of our success.

As Our Ideal Candidate you will ...

- Possess a pro-active and positive approach to problem solving
- Have a passion for technology, particularly e-commerce
- Possess strong communications skills (both written and oral) and be comfortable using modern technology
- Have the confidence to deal with senior level clients and members of their team
- Be able to think creatively and contribute ideas to resolving client's queries
- Be comfortable using their own initiative whilst knowing when to escalate critical issues to their manager
- Be well organised to ensure that no client queries are lost or ignored
- Be capable of working effectively with our team of customer support agents
- Be reliable and punctual

About 247 Commerce

247 Commerce is an e-commerce agency which designs, develops and integrates beautiful, technically advanced web shops for clients including the V&A Museum, Marks & Spencer, the National Theatre, the British Museum, Royal Navy, and multiple small and medium-sized businesses.

We're an officially accredited Magento Business Solution Partner, offering bespoke web store development services featuring highly customised integrations with client's existing software systems. This usually includes integrations with third-party ERP software, warehouse management solutions, CRM systems, payment gateways, shipping services, as well as a vast range of retail software solutions available on marketplaces.

We're also the developer of 247 CloudHub, a multi-channel e-commerce integration tool, which helps online retailers automate key operational processes, reduce costs and manage online selling operations efficiently. CloudHub's modular architecture and highly customisable features provide businesses with a single lightning-fast cloud-based system with all the tools required to scale e-commerce businesses efficiently across multiple websites and marketplaces.

We're really looking for someone who combines great listening skills with a courteous manner and who is responsive to clients' needs. We do expect our employees to show commitment to the success of 247 Commerce, and in return, we offer a great package along with a strong commitment to helping you reach your career goals. You'll have plenty of learning opportunities and will work with incredible people on technically advanced e-commerce projects across the retail industry.

How to Apply ...

You would be an IT Graduate with a qualification in computer sciences, programming or similar.

Applications in the form of a CV, which emphasises relevant skills and experience, together with a covering email, setting out why you'd like to be considered you for this role, should be sent to: jobs@247commerce.com.

247 Commerce is an Equal Opportunities Employer. It's important to us that 247 Commerce offers an inclusive and fair workplace for everyone. We work hard to offer a flexible working environment for all. We encourage an open and supportive atmosphere, where everyone feels included.
